

## Sawmill Drying Chamber 600 m<sup>2</sup> | Renko

### Description

In 2010, pressure washing and coating work of 600 m<sup>2</sup> was carried out at the Renko sawmill. At the same time, joints were sealed with ElaProof H.

### Information

Build Care Oy carried out coating work until 2016. The product was known as AnySeal until 2009 and ElaStop in 2010-2016. The ElaProof brand name was introduced in 2017.
